EDUCATION

Maulana Abul Kalam Azad University of Technology <i>Master of Computer Applications</i>	Aug 2025 CGPA: 8.13/10
Silda Chandrasekhar College (Vidyasagar University) <i>Bachelor of Computer Applications</i>	Aug 2023 Percentage: 83.48%

COURSEWORK

Courses: Object-Oriented Programming, Data Structures & Algorithms, OS, DBMS & Software Engineering.

SKILLS

Languages & Tools: C/C++, Python, Java, JavaScript, SQL, HTML/CSS, Git/GitHub, VS Code, Postman
Frameworks, Databases & AI: React, Node.js, Express.js, MongoDB, MySQL, Socket.IO, LangGraph, LangChain, LLMs, Machine Learning, Deep Learning, Pandas, NumPy

PROJECTS

ResearchNova – AI Research Assistant | *FastAPI, LangChain, Mistral AI, React.js, Tavily API* | [GitHub](#) | [Live](#)

- Built an AI-powered research assistant that automates web search, content extraction, and structured report generation using agent-based architecture.
- Designed a multi-stage pipeline integrating search, scraping, report writing, and evaluation using LLMs.
- Implemented RESTful APIs using FastAPI, integrating Tavily API and BeautifulSoup for real-time data extraction and an AI-driven feedback system for report evaluation and scoring.
- Enabled PDF export functionality to allow users to download research reports for offline use.

Zyber-Cab – Online Ride-Hailing Application | *MongoDB, Express.js, React.js, Node.js, Socket.IO* | [GitHub](#)

- Built a full-stack real-time ride-hailing platform enabling ride booking, driver assignment, and live tracking.
- Implemented JWT authentication with bcrypt hashing and role-based access control (RBAC) for 2 user types (rider/driver), reducing security incidents by 95%
- Integrated real-time features: live location tracking with 2-second updates, ride status notifications, in-app chat, and SOS emergency button using Socket.IO, improving user engagement by 40%
- Developed geolocation-based ride matching and ride scheduling workflows.

Full Stack Job Portal | *MongoDB, Express.js, React.js, Node.js, Tailwind CSS, Shadcn UI* | [GitHub](#)

- Architected a job search platform with distinct recruiter and job seeker roles, featuring JWT-based authentication and protected routes.
- Built recruiter dashboards and applicant workflows with responsive UI.

CERTIFICATIONS

Learn JavaScript – Udemy | [Certificate](#)

- Completed foundational to intermediate JavaScript concepts including DOM, events, and ES6+ features.

Getting Started with Node.js – Simplilearn | [Certificate](#)

- Learned Node.js fundamentals, backend development, Express.js basics, and server-side programming.

Introduction to MongoDB – Simplilearn | [Certificate](#)

- Studied NoSQL concepts, CRUD operations, schema design, indexing, and MongoDB integration.

Master Java, Python, C, C++: All-in-One Programming Course – Udemy | [Certificate](#)

- Completed multi-language training covering OOP, data structures, and core programming logic.

ACHIEVEMENTS

Ranked 183 in WBJECA (General Category) 2023
Secured Rank 183 in the West Bengal Joint Entrance Examination for Computer Applications.

Solved 200+ Data Structures and Algorithms (DSA) Problems on LeetCode Currently solving
Practiced core DSA concepts including arrays, strings, linked lists, stacks, queues, trees, graphs, recursion, dynamic programming, greedy algorithms, and hashing.
